Education

University of North Carolina *Charlotte*
FULL STACK WEB DEVELOPMENT IN COMPUTER SCIENCE *July 21st 2020 – October 14th 2020*

Work Experience

Elly Und Stoffl Kindergarten *Germany, Munich*
ENGLISH LEARNING GUIDE *2017 – 2020*
- English teacher at a Private Kindergarten. I amassed various certificates recognized in Europe while working, such as first aid, Knippe course for children, and undergone multiple child speech development courses.
- I was the English teacher for 20 children in my classroom.
- I planned activities to teach the children vocabulary, proper use of verbs, nouns and adjectives.
- I designed art projects, science experiments and lesson plans for the children on a weekly basis.

English Tutor *Germany, Munich*
BUSINESS AND STUDENT LEVEL ENGLISH TUTOR *2017 – 2020*
- In my spare time, I tutor German children, Students and Businessmen/women alike that wish to extend their knowledge on the English language. (Same as above)

Sizzlers *Australia, Townsville*
HEAD COOK *2015 – 2017*
- I was in charge of all cooked food leaving the kitchen
- I would serve over 400 people a night

Skills

Programming languages: JavaScript, CSS, HTML, MySQL, React.js
Computer Programs: Microsoft Word, Excel, PowerPoint, Visual Studio Code
Certifications: Basic Life Support, Barista, RSA, RSG, Food Handler, Health And Safety

Projects

Passport, JavaScript, Sequelize, HTML, CSS, Handlebars, Bootstrap, Heroku, API

Pandemic Playlist

AN APP THAT ALLOWS A USER TO CREATE AN ACCOUNT, SEARCH FOR 10 RANDOM MOVIES OF THEIR FAVORITE GENRE WITHIN THEIR AGE GROUP. IF THE USER SEE'S A MOVIE WHY WOULD LIKE TO WATCH THEY MAY ADD IT TO THEIR PANDEMIC PLAYLIST, ONCE THEY HAVE WATCHED THAT MOVIE, IT CAN BE MOVED TO THEIR WATCHED LIST AND OR THEY CAN FAVORITE ANY MOVIE OF THEIR CHOICE.

JavaScript, HTML, CSS, JQuery, API's, Bulma

Life Juice

THE GOAL THAT WE WERE TRYING TO ACHIEVE WHILE MAKING LIFE JUICE WAS TO CREATE A UI THAT WHEN INTERACTED WITH, WOULD PROVIDE THE USER WITH JOY, WISDOM, OR A RANDOM FAMOUS QUOTE.

https://solemansay.github.io/LifeJuice/

JavaScript, HTML, CSS, Heroku Deployment, Charts.js, API

Fitness Tracker

I BUILT THIS APP TO KEEP TRACK OF THE USERS FITNESS ACHIEVEMENTS AND COMPILE A DATABASE OF THEIR MOST RECENT WORKOUTS. WHEN THE USER IS PROMPTED TO ENTER EITHER CARDIO OR RESISTANCE FOR AN EXERCISE TYPE THEY ARE THEN TAKEN TO THE NEXT PAGE WHERE THEY SPECIFY WHICH WORKOUT THEY DID, HOW MANY REPS AND FOR HOW LONG.
